divine metaphysics that man cannot be separated from God. He cannot be de-tached from his Source, neither can God be deprived of His ideas or thoughts. This is absolute Christian Science as taught in our textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, our revered and beloved Leader.

We have Scriptural authority for this creation in the first chapter of Genesis. where we read that "God created man His own image, in the image of God created . . . And God saw everything that he had made, and behold, it was very And God gave man dominion over I stand immovable in this conviction, unflinchingly defending my true consciousness, my spiritual selfbood. I admit but one Power, one Presence omappotent, omniscient and omnipresent Mind as real, and I declare my oneness with this great and only Source of being our Father-Mother God. The opposite, so-called mortal mind, or Adam, is not real man, but is the mortal mind which is always opposed to the Christ Mind: one is Truth, the other is error-a false mentality which expresses itself in a material embodiment which manopposing mental forces have always been

The great Master Metaphysician, Jesus the Christ, gained a sublime victory over material senses, the world, the flesh and evil. He is our example. Our Leader, Mrs. Eddy, discovered and founded Christian Science through her apprehension of the superiority of Spirit over matter or the divine consciousness over the material senses. She learned through a highly developed spiritual sense and by constant communion with God and study of His Word how Jesus performed his mighty of healing the sick and destroying She is following the example of Christ and has established this great religious truth in the hearts of those who have spiritual discernment to comprehend it. Prog ress is the law of the Infinite. As Truth urges Her claim upon mortals She meets resistance from the carnal mind. Only the dauntlessly brave who have enlisted in this warfare dare to encounter the hos tility of the relentless foe to Christ the carnal mind. The battle is on for the supremacy of immortal Mind over the mortal, material senses. I have no fear for the result. Truth is always the victor. My opponents declare that my teaching interpretation of Science and Health from mortal now, but in the hereafter they will gain immortality. I declare that "Now we are the sons of God", that now is man a divine emanation of Spirit, and in the words of Jesus, "He that believeth on Me hath eternal life" This understanding

to God - called mortal mind Thought is force. It must be apparent to the twentieth century thinker that man's real consciousness, which proceeds from God, must carry with it the power of God, with which he endowed man. This is the truth of Being and must be demonstrated by humanity either here or hereafter Paul says "For to be carnally minded a death; but to be spiritually minded is life and peace " (Romans, viii 6.)

I have prove the Principle of being in perfect physical health, a perfectly harmonious environment, and calm peace which is inexpressi ble—a trust in ever-present, omnipotent Love, which must be unity with the Source of my being. I have not yet attained to the heights of spiritual power, but I have gained sufficient to meet this hour.

There is a problem before the world that has never been solved. The Bible has been book. Mrs. Eddy has opene this seal and given to the world the Key t the hidden treasures of the Word of God and man's unity with his Maker. She has anmasked the forces of so-called evil which compose the carnal mind, namely, belie of life in matter, which is sin, fear, malice, hatred, revenge, envy, hypocrisy, &c., which have deceived the whole world. With the power of the Word of God tour spiritual consciousness) we are freeing ourselves and humanity from these false forces, and are teaching the Truth which sets free from sin, sickness and death which God has given to the Chrise man. Now they are called upon to show their understanding of divine metaphysics and to judge me, one of Mrs. Eddy's oldest students, with whom she has walked in close association and with devoted love for twenty-five years. During those years I have given all my time to the study and demonstration of Christian Science, and Mrs Eddy says in regard to organization:

Those who are ready rally to Truth's standard. They heed not the overturning and upheaval of faise theories and errone material interpretations of Truth and Her march of divine Science, which seems to proof that anybody had intended opening human sense at the present hour to be "on the scaffold", nor can it terrify Her standard bearers by threats and invectives. Great demands have been made upon me by a large body of students from every walk of life which of the Science of Mind, which has uncovered to me the subtle and false claims of the working of the carnal mind or malicious animal magnetism. While I see this as a false claim, I wrestle with it and through the power of the Christ consciousness make when I am attacked by malicious mental usefulness, to intimidate or discourage meamid the most terrible experiences which My defence is in the sword of the Spirit, the word of God: the declaration that God is the only power and the only presence; that divine Love fills all space; that there is no power or presence opposed to God its forms is powerless to overcome Good ing and at the first sign of trouble the mer and must disappear and leave the field to Love, who fills all space. This is the mental defe ce of a Christian Scientist and is not malpractice

Malpractice is the effort of one mortal injure another or to intimidate or discourage or wrong another. You can readily see that anybody occupying a prominent position, wielding the sword of Truth, which destroys error, thereby arousing more or less of the mortal within and without must have his defence behind the breastwork of Omnipotence. He must dwell in spiritual consciousness. He must 'abide the secret place of the Most High," where no poison barbed arrow wounds the dove.

I am not looking for my be-loved Leader to spare me humiliation or borten the process by coming forward and where I should add and where divide. I have had three classes of personal instruction by her, in the "Massa-chusetts Metaphysical College," and during wenty-five years have received her personal instruction and frequent letters up to the 30th of August, 1909. If I have not attained sufficient spiritual understanding by years of watching, working, prayer and demonstration, to meet this hour, I merit defeat. Jesus met his test of the power of his Christ consciousness over the material world alone with God. He was tempted with world when he cried out, "My God, my God, why hast Thou forsaken Me?"

While in Boston, under the greatest stress, for one moment I said, "I may have been wrong, but I thought I was absolutely "to my friends before I was tried Instantly I recognized that I was meeting doubt, which was immediately dispelled and I knew that my teachings and interpre tations of Science and Health were and had een absolutely correct, and I could not be induced to admit that I was wrong, although

Yet seeing all this before me, I stood unswervingly for my Christ consciousness and for my beloved Leader, whose every word has been to me the voice of Wisdom and Love She has never, during this crisis in the warfare between Truth and error con demned my teaching or practice. I am her loyal, loving, obedient student. If she considered my interpretation of her teaching erroneous she would inform me. Until she does I shall defend my position, and from the vantage ground of divine Love I hall strive to make the claim of evil unreal and wait on God for the result. This battle established on earth.

He is sounding forth the trumpet that shall never sifting out the hearts of men before His Judgment seat.

The conflict will not cease until victory rests on the side of immutable Truth. Man is immortal. Mortal man is a myth, which of divine metaphysics or Christian Science will disappear when man awakes to the but spiritual, an emanation of divine Mind. AUGUSTA E. STEISON

Mr. Carmody will announce other appointments Thursday.

Mr. Kellogg was a Deputy Attorney-General under former Attorney-General Simon W. Rosendale and had been considered by Governor-elect Dix for the appointment as his legal adviser. Mr Kellogg himself was a candidate for the nomination for Attorney-General and is one of the best known lawyers in northern New York.

Mr. Bacon is a son of the late Theodore Bacon, a well known lawyer of his time in vestern New York. Two other prospective appointments

which are reasonably certain are Frank

Brown of Wyoming county and Arnold Potter of Yates county. Mr. Carmody announced that he intended to reduce the number of deputies in the Attorney-General's Department and that he intended to appoint men who

could transact the law business of the State without employing outside counsel. "I think there has been too much work done on the outside by special counsel who have been paid high fees for the conduct of cases that ought to have been handled by the regular staff," said Mr. Carmody. "I believe I shall be able to save the State many thousands of dollars in special counsel fees and at the same time to perform the work of the office

with a smaller regular staff.

"Aside from the civil service appointnents I do not anticipate appointing more than eight deputies for the Albany office and five for the New York office It may be advisable in some cases to employ eminent attorneys as counsel on some highly important constitutional question, but I certainly intend to shut work that the regular staff is paid for."
